Bills to be introduced in the Council of the Governor of Fort St George for the purpose of making Laws and Regulations.

Under rule 20 of the Madras Legislative Council Rules, the following Bills, together with the Statements of Objects and Reasons, are published for general information :—

(1)

BILL No. 12 OF 1927.

A Bill to amend the Andhra University Act.

1926. WHEREAS it is expedient to amend the Andhra University Act, 1926; It is hereby enacted as follows :—

1. This Act may be called the "Andhra University (Amendment) Act, 1927".

2. In section 3, clause (2), *substitute* for "Bezwada" the following words "Anantapur, Rajahmundry or Vizagapatam as the Government deem fit".

STATEMENT OF OBJECTS AND REASONS.

It is admitted on all hands, at least now, that it is advantageous to have the headquarters and the centre of the University at one and the same place. After much consultation and discussion of various views three centres were fixed with ultimate aim of developing them into separate universities. It will be nothing short of breach of faith to try to abolish any of them and create a new centre at Bezwada. The latter place is most unsuitable to be a centre. It has neither historical tradition nor cultural atmosphere. It is thus obvious that the headquarters of the University should be shifted to a place where there is a centre fixed already. There need be no discussion with regard to which centre should be selected for headquarters. One is as good as the other. After all each centre will have a headquarter of its own sooner or later. It is better to leave the selection to the Government without raising any controversy about it

BILL No. 13 OF 1927.

A Bill to amend the Andhra University Act.

WHEREAS it is expedient to amend the Andhra University Act, 1925; It is hereby enacted as follows :— II of 1

1. This Act may be called the "Andhra University (Amendment) Act, 1927".

2. In section 3, clause (2), *substitute* for "Bezwada" the following words "Anantapur, Rajahmandry or Vizagapatam as the Government deem fit".

STATEMENT OF OBJECTS AND REASONS.

After much consultation and discussion of various views three centres were fixed with ultimate aim of developing them into separate universities. BILL No. 14 OF 1927.

A Bill to amend the Andhra University Act.

WHEREAS it is expedient to amend the Andhra Univer-
1925. sity Act, 1925 ; It is hereby enacted as follows :—

1. This Act may be called the "Andhra University (Amendment) Act, 1927".

2. In section 6, clause (3), *for* the words "in the towns of Vizagapatam, Rajahmundry or Anantapur" *substitute* the words "in the headquarters of the University".

STATEMENT OF OBJECTS AND REASONS

The necessity for a separate University for the Andhra Desa mostly arose out of the dissatisfaction with the type and character of the Madras University and it was felt that the Andhra University should be mainly a teaching university instead of being a duplication of the Madras University. But unfortunately this wholesome object was frustrated to a great extent by creating three centres of University. It was recommended by the Andhra University Committee appointed in G.O. No. 1647, Law (Education), dated 24th October 1921, that the Andhra University shall be a teaching university and that no new colleges be affiliated to the University and that the affiliation of the existing colleges in the Telugu districts be only in the Arts and Science courses of the Pass degree. This amendment of the Act is desirable and necessary to conform the Andhra University to that ideal.

(4)

BILL No. 15 OF 1927.

A Bill to amend the Andhra University Act.

WHEREAS it is expedient to amend the Andhra University
1926. Act, 1925 ; It is hereby enacted as follows :—

1. This Act may be called the Andhra University (Amendment) Act, 1927.

2. In section 6, clause (3) of the Andhra University Act, 1926, for the word 'Rajahmundry' the word 'Bezwada' shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

The Andhra University Act, 1925, has made Bezwada the headquarters of the Andhra University. In the closing stages of the University Bill in the Legislative Council leading members

of all parties blessed Bezwada to become also a centre. The Senate of the Andhra University has passed a resolution in December 1926 that Bezwada should also be a centre. Bezwada situated as it is on the banks of the Kistna, occupying the most central position in Andhra desa and possessing many other facilities is eminently fitted to be the headquarters and a centre of the University. The Christian Missions are also ready to start a well-equipped college at a cost of several lakhs at Bezwada if it is made a centre. It is an anomaly that the headquarters should not be a University centre. University education ought principally to develop under the control and fostering care of the Vice-Chancellor and Senate. The University Library has been established at Bezwada. The Syndicate of the University has very recently passed a resolution that Bezwada should be a centre instead of Rajahmundry. By passing this resolution the Syndicate has confirmed the policy of having only three centres. Of course, this need not deprive Rajahmundry of its first-grade college that it now possesses. Only new University developments will have to take place at Bezwada without prejudice to Vizagapatam and Anantapur. In the report of Mr. Statham he mentioned only Vizagapatam, Bezwada and Anantapur as the three suitable centres.

7th August 1927. A. KALESWARA RAO.

(5)

BILL No. 16 OF 1927.

A Bill to amend the Andhra University Act.

WHEREAS it is expedient to amend the Andhra University Act, 1925, for the purposes hereinafter appearing; It is hereby enacted as follows:—

1. This Act may be called the "Andhra University (Amendment) Act, 1927".

2. In section 3, clause (2), the word "Bezwada" shall be omitted and the word "Rajahmundry" shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

The decision to locate the headquarters of the Andhra University at Bezwada has given rise to universal discontent. After long deliberation the Select Committee has selected Rajahmundry as the proper place for the location of the university headquarters. In view of its being the centre of intellectual, social and literary activities for half a century and in view of its cultural associations, ancient and modern, and in view of the other qualifications necessary for the headquarters of a university, Rajahmundry was generally considered as the appropriate station for the location of the Andhra University headquarters.

In spite of its selection by the Select Committee the fact that Bezwada was selected by the Legislative Council in substitution of Rajahmundry was an unpleasant surprise to all the people concerned. The amendment proposed has therefore become necessary.

BILL No. 17 OF 1927.

An Act to amend and define the Law of Intestate Succession among Jains governed by Aliyasanthana Law of Inheritance.

WHEREAS it is expedient to amend and define the rules of law applicable to intestate succession among Jains governed by Aliyasanthana Law of Inheritance and whereas the previous sanction of the Governor General has been obtained under section 80-A of the Government of India Act; It is enacted as follows :—

1. This Act may be called the Jain Succession Act, 1927.

2. It extends to the whole of the Presidency of Madras.

3. It applies to Jains domiciled in the Presidency of Madras who are governed by the Aliyasanthana Law of Inheritance and also, in respect of immovable property situated within the Presidency of Madras to Jains domiciled outside the said Presidency who are so governed.

4. A person is considered to die intestate of property, in respect of which he has not made a testamentary disposal which is capable of taking effect.

Explanation.—Property in this section does not include tarwad or family property, unless the person dying intestate was exclusively entitled to it.

5. Such property shall, notwithstanding any custom to the contrary, devolve upon his heirs in the order and according to the rules of Mitakshara Law of Inheritance, under the Hindu Law.

Explanation.—'Heirs' in this section includes all such issue born of marriage recognized by custom among Jains governed by Aliyasanthana Law of Inheritance.

STATEMENT OF OBJECTS AND REASONS.

The Jains in the South Kanara district are about 9,000 in number and are rich landowners. In matters of faith and religious practices they conform to the Jains in other parts of India. They belong to the Digambara sect. Their shrines situated in Karkal, Venur, Mudabidri and other places are worshipped by all classes of Jains in India and are visited by pilgrims in large numbers annually. In matters of social usages, they conform to those prevailing among the higher classes of Hindus governed by Mitakshara Law of Inheritance. The thread investiture ceremony, the pouring of water at the time of the 'Dhara' or marriage ceremony by the parents, the rules of pollution on the occasion of birth and death are observed as in Makkalsanthana system. The Jain temples are officiated by Jain priests called 'Indras' and they preside at the marriage and other ceremonies. They intermarry with Jains in other parts of India.

Yet, by a strange irony of fate, while they have everything in common with the Jains in other parts of India who are governed by the rules of Hindu Law and who observe the Makkalsanthana system of inheritance to their property, the Jains in South Kanara are governed by the Aliyasanthana system of inheritance by which the line of descent to property is traced to females and whereby the property devolves on sisters and nephews rather than on sons and daughters, as found among Bunts, Billawars and other communities. Even here, the practice is not uniform. The 'Indras' or the priestly class are followers of the Makkalsanthana Law and some of the chief families as 'Ajlar' and the Dharmastal Heggade also follow it. It is futile to ascertain how these incongruities arose and no sufficient materials are available to make researches into it. But the disabilities arising from the application of the Aliyasanthana system of inheritance to Jains who have very little in common with the other classes governed by Aliyasanthana Law are keenly felt, the more so when marriage among them is a recognized institution but is not recognized by law as conferring the right of inheritance from father to son. The Malabar Marriage Act of 1896, though it included all Hindus governed by Aliyasanthana Law, has failed to give any relief to the Jains, since the registration of marriages which is made compulsory under the Act before the marriage is legally recognized, is strongly resented to by the Jains and is opposed to the social custom which recognizes it and governs all their relations. Even among Marumakatayam and other followers of the Malabar Marriage Act, the Act is more or less a dead letter as very few marriages have been registered though the Act was passed more than several decades ago. The present measure, therefore, takes for granted the institution of marriage as it exists and accepts it as being sufficient to confer rights of inheritance. The attempt is to bring into a line with the right of inheritance enjoyed by Jains in other parts of India who follow the Mitakshara Law of Inheritance under the Hindu Law. It is not attempted to revolutionize the whole system of Aliyasanthana inheritance and

the tarwad or family rights are not in any way touched upon and are kept intact, since it will affect the vested rights. The Bill affects only the self-acquired or the tarwad properties of the last surviving owner who could effectively dispose of it by will or testament.

It may be relevant to point out that the Legislature has interfered to give redress in similar instances. In the case of Mappillas of South Kanara who have a recognized system of marriage under Muhammadan Law, but among whom the Marumakkatayam or Aliyasanthana system of inheritance prevailed, the Legislature by Act I of 1918 gave the necessary relief by confining its operation to self-acquired properties and made the properties descendible to children instead of tarwad members, i.e., to sisters and sisters' children. The present Bill attempts no more than what has been done under Act I of 1918 and is practically framed on the same lines by giving legal sanction to the marriage prevalent and recognising the issue of such marriages entitling them to inherit the property.

The matter was brought to the notice of Government by a memorial, dated 29th May 1918, through the Collector of the district and the Government, after obtaining the opinions of High Court Judges, the Advocate-General and the District Judge of South Kanara, who all favourably viewed it, gave permission by G.O. No. 944, Home (Judicial), dated 29th April 1918, to introduce a Bill in the Local Legislative Council by a non-official member. Leave to introduce was given to this very Bill by the last Council to Mr. Dharmastal Heggade, a Jain himself, but for lack of time it lapsed. There are only five sections; sections 1 and 4 require no comment and section 5 has been sufficiently dealt with.

BILL No. 18 OF 1927.

A Bill to amend the Andhra University Act.

WHEREAS it is expedient to amend the Andhra University Act, 1925; It is hereby enacted as follows :— of 1926.

1. This Act may be called the Andhra University (Amendment) Act, 1927.

2. In section 6, clause (3), of the Andhra University Act, 1925, after 'Rajahmundry' *insert* a comma, and *add* 'Bezwada'. of 1926.

STATEMENT OF OBJECTS AND REASONS.

Bezwada having been made the headquarters of the Andhra University, it is necessary, as pointed out by the Members of the Legislative Council of all parties during the final stages of the

Bill in the last Council, to make Bezwada a university centre also. In its meeting held on 10th December 1926, the Senate of the Andhra University by a majority of 28 to 4 decided to recommend this amendment to the Legislative Council. Further the Syndicate and the Senate of the Andhra University unanimously decided to locate the University Library at Bezwada. With the Senate buildings and a big university library established at Bezwada, it will be anomalous not to allow Bezwada also to become a seat of learning.

7th August 1927. SRIMAN NARAYANA APPA RAO.

(8)

BILL No. 19 OF 1927.

A Bill to amend the Andhra University Act.

WHEREAS it is expedient to enable the Andhra University to establish a University college, or a first-grade college, or affiliate any institution which is, or which may hereafter be, brought into being as a University college or a first-grade college in Guntur;

AND WHEREAS it is found necessary and expedient to have the same object achieved by not dislocating the existing colleges;

It is hereby enacted as follows:—

1. (*a*) This Act may be called the Andhra University Amendment Act, 1927.

(*b*) It shall come into force on such date and in such manner as the Local Government may by notification appoint.

2. In section 6, clause (3), of the Act, *insert* a comma and the word 'Guntur' between the words 'Rajahmundry' and 'or'.

3. In section 6, clause (5), of the Act *substitute* the word 'twenty' *for* the word 'ten'.

STATEMENT OF OBJECTS AND REASONS.

The object of providing for the several concentration centres under the Act is to encourage the development in the fullness of time of independent and residential universities at each centre. As it is, there is no centre in the whole tract between Rajahmundry and Anantapur, though there are three first-grade colleges and one second-grade college already in existence therein. There is also a near prospect of two or three more second-grade colleges being started in these districts. Guntur is the most deserving

place in this tract for being recognized as a concentration centre. Guntur was the capital of the old Reddi kings of the Andhra desa. The seats of the ancient Sanskrit Universities of Amaravati and Dhanakataka are close to Guntur. The Guntur district has long been the most literate district in the Presidency next to Malabar, and it now produces the largest number of eligibles in the S S L.C. Examination in the Andhra University area. There are about nineteen high schools in the district, and in the Guntur town itself there is the U.L.C.M. first-grade college having the largest strength in the university area, the authorities of which are prepared to open Honours courses in case Guntur is recognized as a centre, and a flourishing Committee High school possessing the largest strength and producing the largest number of eligibles in the area, the application for the affiliation of which as a second-grade college is pending with the University authorities. There are, besides, in Guntur a Government High school for Muhammadans, a Mission High school for girls which is likely to be raised to a second-grade college in the near future, two training schools, a girls' school for Muhammadans, a free boarding and residential school for girls called the Sarada Niketanam and a free boarding school for Panchamas. The Government Medical School, the buildings for which are nearing completion, will shortly be removed to Guntur from Vizagapatam. Besides the District Government hospital, there are the well-equipped famous mission hospital for women and children and another women and children's hospital under the management of the Roman Catholic Mission. There are also two agricultural farms, one under the Government and the other under the mission management, spread over an area of nearly 500 acres, which may form the nucleus for an agricultural college. There are extensive and continuous grounds on all sides of Guntur town for the construction of new buildings with greater safety and at less cost than in any other town. The town is situated on an elevation of 40 feet to 50 feet over the surrounding country and has a dry and healthy climate.

There is a vast extent of Government land of three to four thousand acres at Sitabagaram very conveniently situated between the southern bank of the river Kistna and the Buckingham canal which is quite suitable for both building and agricultural purposes and can therefore be selected for the location of the future university buildings. The extension of the radius from 10 to 20 miles is necessary to take advantage of this land.

Hence this Bill.

BILL No. 20 OF 1927.

The Village Officers Bill.

WHEREAS in most parts of the province, the offices of village headman and karnam are hereditary and it

is desirable that there should be uniformity of tenure of these offices throughout the province; It is hereby enacted as follows :—

1. This Act may be called the Village Officers Act, 1927.

2. The offices of village headman and karnam in the districts of Tanjore, Trichinopoly, Salem, the Nilgiris, South Kanara and other parts of the Presidency where they are not already hereditary are hereby made hereditary, and the present permanent holders of the offices shall be deemed to be such hereditary incumbents.

3. The provisions of the Madras Hereditary Village Officers Act, III of 1895, shall apply to the offices referred to in section 2.

STATEMENT OF OBJECTS AND REASONS.

In more than three-fourths of this province, the offices of village headman and karnam are hereditary, and it is desirable that there should be uniformity of tenure of office throughout the province, and there is no reason whatever for any differentiation. It is also desirable that the unhealthy scramble for office whenever a vacancy occurs should be avoided. This Bill is introduced with these objects in view.

BILL No. 21 OF 1927.

A Bill to amend the Andhra University Act.

WHEREAS it is found that at Bezwada, the present headquarters of the university, there is no academic atmosphere, that sufficient and convenient grounds for the construction of the present and future buildings of the university are not available in the town and that for various other reasons Bezwada is not a suitable place for the headquarters of the university ;

And whereas it is expedient to transfer the headquarters of the university from Bezwada to Guntur, which is in every way fit for the same, it is hereby enacted as follows :—

1. (*a*) This Act may be called "The Andhra University (Amendment) Act, 1927".

(*b*) It shall come into force on such date and in such manner as the Local Government may by notification appoint.

2. In section 3, clause (2) of the Act, *substitute* the word "Guntur" *for* the word "Bezwada".

STATEMENT OF OBJECTS AND REASONS.

At Bezwada, the present headquarters of the university, there is no academic atmosphere whatsoever. It does not possess even a second grade or special grade college. The headquarters of a university without even one first-grade college is unthinkable. Besides possessing all the advantages which Bezwada can boast of, Guntur has the biggest college in the Andhra districts and the largest high school in the Andhra University area, which has sought for affiliation as a second-grade college. Guntur also possesses a Mission High school for Girls, a Government High school for Muhammadans, a Mohammadan Girls' school, a Free Boarding and Residential Girls' school, two training schools and a Free Boarding school for Panchamas. The Government Medical school will soon be transferred from Vizagapatam to Guntur. There are two big Agricultural Farms which may in course of time be developed into an Agricultural College. There are three efficient and well-equipped hospitals in Guntur town. The ancient universities of the Andhra Desa were at Amaravati and Dhanakataka near Guntur. Next to Malabar, Guntur district is the most literate district in the Presidency having about 19 high schools and sending up the largest number of candidates for the Government and University Examinations. The climate of Guntur is dry and healthy, the town being on an elevation. It has flat and spacious grounds for building purposes and the town can be extended on all sides to any distance, and the cost of acquisition of land is comparatively very low. Guntur is the most central place in the Andhra University area, taking particularly the ceded districts into consideration.

No. 285.—The following notification of the Government of India is republished :—

DEPARTMENT OF COMMERCE.

PRESS COMMUNIQUÉ.

Simla, the 16*th August* 1927.

No. 341-T (38).—In a Resolution No. 341-T (27), dated 7th June 1927, the Government of India announced their decisions on the recommendations of the Cotton Textile Tariff Board. They agreed to the removal of the import duties on certain classes of machinery and mill stores, but they were unable to accept—

(a) The proposal of the majority of the Board for the payment of a bounty to encourage the spinning of the finer counts of yarn ;

(b) The proposal of Mr. Noyce that a differential duty of 4 per cent should be imposed on imports of yarn from Japan in addition to the revenue duty of 5 per cent.

(c) The proposed increase in the duty on piece-goods from 11 to 15 per cent on imports from all countries (as recommended by the majority) or on imports from Japan only (as recommended by Mr. Noyce).

A strong representation against these three decisions was submitted by a conference of representatives of the Cotton Mill Industry in India, and subsequently the claims of the industry to protection were placed before the Government of India at an interview between the Commerce Member and the Committee of the Bombay Millowners' Association at Bombay and by a deputation of the millowners which was received by His Excellency the Viceroy at Simla. The deputation also asked for certain additions to the list of articles of machinery and mill stores which it is proposed to exempt from duty.

2. The Government of India have most carefully considered all that has been urged by the millowners and have reviewed the decisions to which exception was taken with the desire to take such further steps as were possible to assist the industry where that could be done without sacrifice of principle and with due regard to the interests of India as a whole. They have found it impossible to approve either the proposed bounty on the spinning of the finer counts of yarn or the differential duty against Japan, but have come to the conclusion that the cotton spinning industry can fairly claim additional assistance. The Tariff Board found that the unfair advantage enjoyed by the Japanese spinning mills, owing to night work by women, was 10 per cent of the selling price at the time they reported, whereas the existing revenue duty is only 5 per cent. They found also that the Japanese competition was most intense in respect of the counts of yarn from 31s to 40s and that the unfair advantage of a mill spinning an average of 32s was 16·65 pies per pound. It appears from these figures that a specific duty of one and a half annas per pound would neutralise the unfair competition of the Japanese mills at the point where that competition is most injurious to the Indian cotton spinning industry. The Government of India have, therefore, decided to bring before the Legislature a Bill providing that, up to the 31st March 1930, the duty on cotton yarn, irrespective of the country from which it is imported, should be one and a half annas a pound, or five per cent *ad valorem*, whichever is the higher. The effect will be that duty will be leviable on all imported yarn at the rate of one and a half annas per pound, unless its value exceeds Rs. 1-14-0 per pound, in which case the duty will be 5 per cent *ad valorem*. For protective purposes a specific duty is always preferable to an *ad valorem* duty, which varies with the price and is apt to give inadequate protection when the price is low and excessive protection when the price is high. Under the Japanese Factory Law, night work by women will be prohibited from the 1st July 1928, and it is expected that all yarns produced by mills employing women on night work will be off the market before the 30th March 1930.

3. The Government of India have considered the effect of the one and a half anna duty on the handloom industry, and their re-examination of this question has satisfied them that the consequences are not likely to be very serious. The price of the finer counts of yarn will be increased but little, or not at all, while, on the other hand, in respect of counts up to 30s the direct Japanese competition is negligible, and the total imports are less than one-half per cent of the Indian production. The price of such yarn must be determined largely by internal competition, and it is quite uncertain to what extent, if at all, the price will be increased. The bulk of the imports from Japan are of the medium counts from 31s to 40s and here the price may be raised to the full extent of the duty. The total consumption of this class of yarn is about 50 million pounds a year, and if the handloom industry is assumed to take half of this quantity, it represents less than 10 per cent of the handloom consumption of yarn. The Government of India are anxious, however, to do what is possible to minimise the burden on the handloom industry, and with this object and also to facilitate the diversification of the mill production, they have decided to include in the proposals to be placed before the Legislature the reduction from 15 to 7½ per cent of the duty on artificial silk yarn, which is being used in increasing quantities both by the handloom weavers and by the cotton mills.

4. After considering the representations of the millowners, the Government of India have also decided to include in the list of machinery and mill stores to be exempted from duty bobbins and pirns, picking sticks, roller skins, and roller cloth, clearer cloth and sizing flannel. They have also endeavoured to word the definition of the dyes to be exempted from duty in such a way as to cover all coal tar derivatives used in dyeing. This is a point to which the millowners attached importance.

6. The Government of India have carefully considered all that has been urged in favour of a higher duty on piecegoods, but their review of the question has not led them to modify their original conclusion. They are satisfied that, apart from the unfair advantage of the Japanese mills, no valid ground for protection or safeguarding has been established, and they cannot ignore the fact that the unfair advantage is already neutralised by the existing 11 per cent duty. They cannot, therefore, agree that a safeguarding duty should be added to the revenue duty or that the duty should be increased on other grounds. The reasons for this decision have been explained at greater length in a separate letter addressed to the Bombay Millowners' Association.

No. 1245.—The Board of Commissioners for Hindu Religious Endowments brings to the notice of the Government that the temple of Sri Vamanamurthiswami in Singanmala village, Rajampet taluk, Cuddapah district, the annual income of which is less than Rs 250 is not well managed, that the dhwajasthambam of the temple has fallen down and that there is nobody to look to its replacement. It is further reported that there is no trustee to look after the temple affairs and that the inam lands of the temple are in the possession of the Archaka who is rendering the services in an irregular and irresponsible way. The Board therefore requests the Government to apply to the temple all the provisions of the Madras Hindu Religious Endowments Act except section 69 (1) (relating to the levy of contribution towards the expenses of the Board). Before issuing a notification under the proviso to section 4 of the Act as desired by the Board, the Government desire to know whether the Archaka or any worshipper at the temple has any objection to urge against the application of the Act. If no valid objection is received by Government within a month from the date of publication of this notification in the District Gazette they will proceed to issue a notification under the proviso to section 4 of the Act applying all the provisions of the Act except section 69 (1) to the said Sri Vamanamurthiswami temple in Singanmala village, Rajampet taluk, Cuddapah district.

No 1246.—The Board of Commissioners for Hindu Religious Endowments brings to the notice of Government that the temple of Sri Varadarajaswami in Poli village, Rajampet taluk, Cuddapah district, the annual income of which is less than Rs. 250 and which is thus outside the scope of the Act, is in a neglected condition, that the idols are broken and that the garbhagraham, the dwajasthambam and compound walls need reconstruction. It is further reported that services in the temple have practically ceased, that there is no trustee to look after its management and that the Archaka, who is in possession and enjoyment of the endowments, employs no portion of the income for the general upkeep and repairs of the temple. The Board therefore requests the Government to apply to the temple all the provisions of the Madras Hindu Religious Endowments Act, 1926, except section 69 (1) (relating to the levy of contribution towards the expenses of the Board) so that a scheme may be framed for the proper management of the temple. Before issuing a notification under the proviso to section 4 of the Act as

suggested by the Board the Government desire to know whether the Archaka of or any worshipper at the temple has any objection to urge against the application of the Act. If no valid objection is received by Government within a month from the date of publication of this notification in the District Gazette, they will proceed to issue a notification under the proviso to section 4 of the Act applying all the provisions of the Act except 69 (1) to the said Sri Varadarajaswami temple in Poli village, Rajampet taluk, Cuddapah district.

No. 1247.—The Board of Commissioners for Hindu Religious Endowments brings to the notice of Government that the Mahanta Math at Panganur taluk, Chittoor district, the annual income of which is less than Rs. 250 and which is thus outside the scope of the Hindu Religious Endowments Act, 1926, is not well managed. It is reported that the trustee raised a loan of Rs 600 seven years ago by means of a mortgage of the math property for the purpose of repaying money borrowed for sinking a well, that no documentary evidence has been produced for the loans originally raised or for the expenditure of Rs 400 said to have been incurred on the construction of the well, that the trustee has still a balance of Rs 200 of the borrowed amount though the whole of the mortgage debt remains undischarged, and that no accounts are maintained for the math itself. The Board accordingly requests the Government to apply to the math all the provisions of the Act except 69 (relating to the levy of contribution) with a view to improve the administration of the math. Before issuing a notification under the proviso to section 4 of the Act, as recommended by the Board, the Government desire to know whether the trustee of or any person having interest in the math has any objection to urge against such application. If no valid objection is received by the Government within a month from the date of publication of this notification in the District Gazette, the Government will proceed to issue a notification applying all the provisions of the Act except section 69 to the said Mahanta Math at Panganur, Panganur taluk, Chittoor district.

It is further reported that temple services and utsavams are not performed and that the trustee does not exercise effective control. The Board therefore requests the Government to apply to the temple all the provisions of the Madras Hindu Religious Endowments Act, 1926 (Act II of 1927), except section 69 (1) (relating to the recovery of contribution towards the expenses of the Board). Before issuing a notification as suggested by the Board, the Government desire to know whether the trustee of or any worshipper at the temple has any objection to urge against the application of the Act. If no valid objection is received by the Government within a month from the date of publication of this notification in the District Gazette, they will proceed to issue a notification under the proviso to section 4 of the Act applying all the provisions of the Act except section 69 (1) to the said Sri Padmagirinabhaswami temple at Obili, Rajampet taluk, Cuddapah district.

DEPARTMENT OF AGRICULTURE.

THE INDIGO CROP OF 1926-27—FIRST REPORT.

[On an average of the five years ending 1925-26, the area under indigo in the Madras Presidency has represented 47·2 per cent of the total area under indigo in India.]

The area sown with indigo in the Madras Presidency up to the end of August 1927 is estimated at 29,400 acres against 40,100 acres on the corresponding date of last year, a decrease of about 27 per cent.

2. The reduction in area is general in most of the important districts especially in Kistna, Cuddapah, Nellore, and South Arcot, owing to the small demand for the dye as the result of the competition of cheap synthetic dyes.

3. The crop suffered from drought to some extent in the Carnatic, Chittoor, and North Arcot.

4. There is no information about the quantity actually manufactured into dye or cut and ploughed into wet land soils as green manure. But the use as green manure is on the increase, especially in the Carnatic and Central districts. It may safely be taken that the large majority of this crop is now grown as a green dressing. If the whole crop were manufactured into dye, the possible yield would be about 7,100 cwt. against 9,620 cwt. estimated at the corresponding date of last year.

No. 10.—In virtue of the powers delegated by clause XIII (2) of the Government Notification No. 485, dated 13th July 1898, as subsequently amended and of the orders of Government in G.O. No. 1404, Revenue, dated 21st July 1927, the Commissioner of Excise hereby prescribes under clause (*b*) of section 29 (2) of the Madras Abkari Act, I of 1886, the following rules for the formation of and conduct of business by the Excise Advisory Committee for revenue divisional areas including the smaller municipalities.

(*e*) one member from each taluk board comprised in the revenue division, more than one taluk board is so included; or if the revenue division includes only a single taluk board, the two members for such taluk board. Members under this clause shall be elected by the taluk boards concerned and shall demit office on ceasing to be taluk board members,

4. (*a*) For the elected seats mentioned in clauses (*d*), (*e*), (*g*) and (*h*), the Collector shall give at least one month's notice to the body concerned to elect its representatives and communicate the result to him.

(*b*) In order to elect a representative of the excise licensees the Collector shall fix a date and time for the election and appoint a recording officer (who may be the Inspector of Excise for the area in question) and give at least ten days' clear notice of such election to all licensees holding licences of the classes mentioned in rule 12 by publication in the district gazette. Voting shall be by ballot. If the excise licensees fail to avail of the concession to elect, the Collector may nominate a licensee to the seat.

5. The tenure of office of the Committee shall be for a period of three years.

6. (*b*) When a vacancy occurs in the Committee during its term of office the Collector shall at once arrange to have the vacancy filled (as the case may require) either by himself making a nomination or by calling upon the officer competent to nominate to fill up the vacancy in the case of nomination seats or the body concerned to elect a substitute in the case of elected seats and in case such body does not elect a representative, the Collector shall nominate a suitable person instead.

9. Generally ten days' notice shall be given of the questions to be discussed at any meeting.

10. In the minutes of each meeting the reasons for each decision shall be briefly but clearly stated, and the number of votes for or against the proposal before the Committee or any amendment thereto shall be recorded.

11. The chairman shall, within seven days of each meeting, communicate a copy of the minutes of the meeting to the members of the Excise Advisory Committee and to the Collector of the district.
